KNOT ABBREVIATIONS

LH — Lark's Head: fold, loop over ring, ends through.
HDHH — Horizontal DHH: two hitches over a horizontal carrier.
VDHH — Vertical DHH: weaver wraps each warp twice; the face knot.
SK — Square Knot: locks tassel hangers to the chin edge.
WK — Wrap Knot: binds tassel necks, tail pulled hidden.
RK — Rya Knot: folded cord straddles carrier; whisker knot.
OK — Overhand: stops fraying ends.

TOP 5 MISTAKES TO AVOID

1. Uneven VDHH tension — comb rows down every 4 rows.
2. Miscounted socket skips — always warps 4–6 and 11–13.
3. Brushing the face fabric — brush tassels ONLY.
4. Thin whisker glue — use 2:1 glue:water, pin till dry.
5. Wrapping the nose loose — first wrap must bite both warps.

Session plan: S1 frame + warps + crown • S2–S3 face rows • S4 ears + eyes • S5 nose + whiskers • S6 tassels + finishing.
