Owl sizing cheat sheet

	Teal	Mustard	Rose
Ring	12 in	10 in	8 in
Cords	24	20	16
Rosette PSKs	9	8	7
Chest berries	21	14	8
Tassel	11 in	9 in	8 in
Branch pos.	12 in	5 in	20 in

Top 5 mistakes to avoid

1. Mounting cords all the way around the ring - the bottom ~200 degrees must stay bare for the sunburst fans.
2. Locking safety-eye washers before dry-fitting both eyes and the beak - washers do not come back off.
3. Too many picot knots in a rosette - if it cones instead of lying flat, remove one knot before joining.
4. Uneven fan spacing - pencil-mark the ring arc every 3/4 in and land one hitch per mark.
5. Trimming tassels before branch assembly - set lengths only after all three owls hang in position.
